November 21, 2002

To: Mayor and Council Members

From: Stephen L. Morgan, City Auditor 

Subject: Approved OCA CY 2003 Performance (Work) Plan

Thank you for your assistance in developing our CY 2003 Performance (Work) Plan. With your input and approval, we will be carrying out projects in the following five areas:

1. Results: Optimize quality of City outputs or outcomes for selected Council priorities.
2. Economy: Optimize revenues and reduce selected expenditures.
3. Compliance and Safeguarding: Adherence to policy or laws; public integrity; safeguarding of assets.
4. Austin Energy: Conduct audits in partnership with Austin Energy, as requested by City Council.
5. Follow-Up Verification

The attached plan presents two major changes from previous years. First, we are shifting to a calendar year planning time frame to facilitate identification and completion of projects. Second, we are narrowing project level audit scopes, which will mean more focus but less risk assessment and a lower level of assurance that significant issues are being identified. We intend to partially compensate for this scope reduction by conducting a City-wide risk assessment based on a three-year cycle, i.e., one-third of City programs will be assessed each year.

The draft plan was presented to the Council Audit and Finance Committee on November 5, 2002, and formally approved at the November 19, 2002 Audit and Finance Committee meeting.

cc: Toby Futrell, City Manager  
Juan Garza, General Manager, Austin Energy
